IMPORTANT NOTE: PLEASE LABEL EVERYTHING WITH YOUR NAME.

*(Every single crayon, color pencil, pen, glue stick, etc.
EVERYTHING!!!)*

****5th Grade Summer Assignments****

- Read the book, Sign of the Beaver, by Elizabeth George Speare.
- Complete the Sign of the Beaver Review Packet. (It will be due on the first day of school and there will be a quiz within the first two weeks of school. We will correct it together in class. This packet will help you study for the quiz.)
- Summer is a time for math, too! In order to be prepared for new 5th grade math skills, I want you to practice and review the skills you learned in 4th grade. This summer, sign up at **khanacademy.org** (You should already have a log in from 4th grade, but if you don't, you will create a new one. Remember, you will need a parent to sign in with you because you are under 13 years of age.) Although you can explore many subjects at Khan Academy, make sure you include the **4rd grade math curriculum**. To do so, please follow the directions on the following page. The class code is: **75SHBU** If you have any problems, email me: der@stanne.com. I will be able to view your progress, so stay active! Plan on visiting Khan Academy at least 2-3 times per week during the summer. **Don't wait for the last minute to complete this assignment because the program will shut you out after a certain amount of time.** Hints are available for all the questions, so take advantage of the extra help if you need it. An online scratch pad is also available or you can use pencil and paper. Your homepage displays your progress, as well as videos you can watch, and practice activities to complete. You can earn energy points to upgrade your avatar and earn badges. Get a head start so you'll begin 5th grade on point!

- When you have completed ALL the lessons, email me with a screen shot, or a note that you have completed it. The program continuously updates, so if you finish it 2 weeks before school starts, and I login to check your progress on the first day, it will no longer show 100% complete. So make sure you send me an email as soon as you have completed this assignment!

- Basic Multiplication & Division facts should be mastered, for those of you have not yet to master them. You should also have your basic knowledge of addition, subtraction, long division, and fraction skills mastered as well. (Completing the Khan Academy program will definitely help you.)

*I hope you have a fun summer, and look forward to welcoming you to
5th Grade.
See you soon! =)*

Sign of the Beaver Review Packet ** Due the 1st day of school!**

Chapter one...

1. Why does Matt's father leave him alone in the wilderness?
